SURVEY OF BAR BEING MADE

Strathclyde Brings Down 3,500,000 Feet of Lumber and Will Shortly be Followed by the Strathre With a Similar Load, Both for the Orient.

The George H. Mendell, with the United States engineers on board, is now on the bar where the survey is being prosecuted. The work is in charge of Gerald Bagnall who is confident that the result will show a greater depth of water this year than last. Much sand and other debris has been carried out to sea, and the shallowest places last year showed 23 feet. Ships have had less difficulty in passing in and out.

Seven large steamships will clear from the river for the Far East this month with cereal cargoes. The Waterhouse Company will dispatch three, the Portland & Asiatic Steamship Company three and Balfour, Guthrie & Co., one. The shipments the craft will take out will be sufficient to make the last month of the cereal season one of the best of the year.

The Waterhouse firm will load Gymeric and the British steamships Ascot and Maori King in the river this month. The P. & A. Company will send out the Numantia, Arabia and Japanese steamship Manshu Maru. The Norwegian steamship Sark will sail with a full cargo of wheat supplied by Balfour, Guthrie & Co. The Norwegian steamship Henrik Ibsen is under charter to carry flour and wheat to the Orient in July.

Six of the cargoes will be comprised almost wholly of flour, which is expected to aggregate more than 300,000 barrels, a record breaker in this line of business. The Sark is already completing a cargo of more than 200,000 bushels of wheat. The Oriental liner Numantia will clear Saturday with about 60,000 barrels of flour, in addition to miscellaneous freight. The Manshu Maru is expected to arrive soon, closely followed by the liner Arabia.

Laden with 3,500,000 feet of lumber, dispatched by E. T. Williams & Co., the British steamship Strathclyde, Captain Crenar, left down from Linnton Monday evening for Shanghai, and is expected to lie here today for the evening tide. She will coal at Nanaimo, B. C., and probably at Kobe, Japan, as well.

In about two weeks the British steamship Strathre will complete a lumber cargo of similar dimensions at Linnton for the same destination. She moved to that port from Rainier yesterday with about half a load. Both craft were delayed in the river because the supply of lumber at the local mills was short on account of the strike.

Frank Waterhouse & Co., chartered the British steamship Gymeric this morning to transport a cargo of Oregon products to North China. The major portion of the load will be flour. The steamer is bound from Mazatlan, Mex., to Victoria, B. C., in ballast. On her arrival at the Canadian port she will be ordered to sail for the Columbia River, and is expected to put in an appearance June 12.

The steamer Yosemite came into Astoria to complete her cargo at the Hume Mill. She loaded 670,000 feet at South Bend and takes on 250,000 feet at Tongue Point, when she will proceed to Frisco.

The schooner Irene which loaded lumber at St. Helens came down yesterday afternoon. Her destination was not known, as the Captain had not received sailing orders.

The British ship Strathclyde is expected down today and will probably go out on the evening tide. She is bound for the Orient.

The African Monarch is due here Wednesday or Thursday and goes to Tongue Point to load lumber for the Orient.

The pilot schooner Joseph Pulitzer returned to her station at the mouth of the river yesterday morning.

The ship Columbia cleared yesterday with 1,093,000 feet of ties loaded at Stella.

The steamship Columbia is due down today and will tie up at the O. R. & N. wharf.

The schooner Erie came in from Tillamook yesterday with a general cargo.

RETURNS FROM EAST TO ASTORIA

MR. J. B. BRYCE COMBINES BUSINESS AND PLEASURE TRIP AND VISITS HIS OLD HOME.

Mr. J. C. Bryce has returned to Astoria after his journey to the East. Mr. Bryce was elected lay commissioner to the General Assembly of the Presbyterian Church of the United States by the Portland Presbytery, and it was to the session at Columbus, Ohio, that Mr. Bryce made the journey. He elected to go through Canada and traveled both ways over the C. P. R. In the northwest he found the season a month late and that the grain had only just been sowed and harrowed. However, the farmers were hopeful and claimed that, if they had ninety days of good weather, they would reap a fine crop. Mr. Bryce journeyed on to St. Catharines, close to Niagara Falls, on the Canadian side, near which city he visited his old home at Allenburg, and had an enjoyable time with his old friends. He continued to Buffalo and again made a stop to renew old acquaintanceships. From Buffalo Mr. Bryce went straight to Columbus, Ohio, to attend the session of the General Assembly, the principal object of his journey, coming there on May 16. The sessions, Mr. Bryce reports, were extremely interesting. Addresses were given by many of the prominent leaders of the church. Altogether there were over a thousand commissioners present, and the popular meetings were attended by many of the resident citizens. Audiences in some cases numbered 4000 people. The Rev. W. H. Roberts, D. D., was elected moderator of the Assembly by acclamation and he proved exceedingly able and efficient.

Mr. Bryce was charmed with the city of Columbus which he says is very beautiful. There are many fine residences and handsome business blocks. The city has a population of 2000 and is of course the capital city of the state. It has many public institutions, including hospitals for the blind, the feeble minded, the deaf and dumb, and so on, which are all state institutions.

Altogether, Mr. Bryce had a very pleasant and interesting journey and is well satisfied that he undertook it.

Stage of the River—

After reaching a stage of 19.7 feet at Portland Friday, the river will come to a stand, which will probably mean the highest mark attained by the annual rise this year. While he does not care to make the plain statement to that effect without qualification, District Forecaster Beals this morning said:

"It looks as if the annual rise of the Columbia is practically over, but at this juncture I am not in a position to say definitely."

IT MAKES A DIFFERENCE.

It makes all the difference in the world to the convivial man where, and what, he drinks. Most men desire beauty and cleanliness, and handsome appointments in the saloon they patronize regularly, as well as the essential pre-requisite of genuine wines and liquors that are served to them. And these things are so particularly and properly conspicuous at Otto Sund's elegant resort, the Commercial, at No. 509 on the street of that name that they account thoroughly for the fixed and splendid custom he enjoys. There is nothing allowed to pass his counter but the best and choicest in every department of indulgence, and the service behind it all, is the most pleasing and satisfying in the city.

Just Received

The secret of making good pictures is in having the best materials to work with. Hart's drug store have just received a fresh supply of films and film-packs, so get in the game and do it right.

For The Little People.

Every parent in this city should investigate, at once, the new and appreciable shoe for the youngsters, at Charles V. Brown's Commercial street house. They are called the "E. C. Scuffer" and are the very epitome of good wear and real comfort. They are going like wild-fire and the kids themselves are after them because they look so "comfy."

AT THE WALDORF.

A fine series of living pictures is now the star attraction at the Waldorf, and they are most decidedly well worth seeing. Exhibitions are held hourly commencing at 8:30 and everyone who gets a chance should visit this show. There has not been a better Cinematograph in town for a long time. The series comprises many highly amusing pictures and others of a very interesting character. So rush up while you have the chance and see this show.
